University of Zagreb Faculty of Electrical
Engineering and Computing (FER)

Frequency: 4 issues per year

Print ISSN: 0013-7448

Online ISSN: 1849-0751

UDK: 621.31

Formal Information

The **Journal of Energy - Energija** is an international scientific and professional journal dedicated to advancing knowledge and innovation across the broad field of energy systems and technologies. The journal provides a platform for publishing high-quality original research, technical analyses, and professional contributions addressing both theoretical developments and practical implementations within the energy sector.

With a tradition dating back to the early 1950s, the journal has evolved into a recognized forum for interdisciplinary dialogue among researchers, engineers, and industry experts working on contemporary energy challenges. Over the decades, it has transformed from a professional industry publication into a modern scientific journal focused on original research and advanced technological solutions in energy engineering and related fields.

The journal publishes peer-reviewed articles covering a wide spectrum of energy-related topics, including:

- electrical power systems and energy infrastructure
- renewable and sustainable energy technologies
- nuclear and thermal energy systems
- energy economics and policy
- advanced modeling, risk assessment, and engineering solutions in the energy sector

By integrating scientific research with real-world applications, the journal aims to contribute to the advancement of state-of-the-art energy technologies and support sustainable development of modern energy systems.

All articles are published under a **Creative Commons Attribution–NonCommercial (CC BY-NC 4.0)** license, enabling users to read, download, share, and adapt the content for non-commercial purposes with proper attribution to the original source. Authors retain copyright over their work while benefiting from broad visibility and accessibility.

The journal is jointly published by **Hrvatska elektroprivreda d.d., Croatian National Committee of CIGRÉ**, and the **University of Zagreb Faculty of Electrical Engineering and Computing**, reflecting strong collaboration between academia, industry, and international professional networks.

The journal operates under a **Diamond/Platinum Open Access model**, ensuring that all published articles are freely available to readers worldwide without subscription fees or article processing charges (APC). This policy promotes global accessibility of knowledge and encourages the dissemination of scientific results without financial barriers for authors or readers.

Through its long publishing tradition, international collaboration, and open access philosophy, the **Journal of Energy – Energija** continues to serve as a valuable platform for disseminating innovative research and fostering dialogue among scientists, engineers, and decision-makers shaping the future of the global energy sector.

Editorial Team:

Publishing Board

Robert Krklec (president), HEP Plc, Zagreb, Croatia

Božidar Filipović-Grčić (vicepresident), HRO CIGRE, Zagreb, Croatia

Juraj Havelka (member), University of Zagreb FER, Zagreb, Croatia

Editor-in-Chief

Igor Kuzle, University of Zagreb, Croatia
